WHAT ARE YOU PLUGGING INTO?

POWER DISTRIBUTION

All Vertex models can be used as stand alone PDU's (Power Distribution Units) or you can plug them into other power management devices to add extra outlets with a vertical configuration. When plugged into any Panamax or Furman power management product the Vertex will share all of the same AC line protection and AC line filtering.

POWER DISTRIBUTION FEATURES

VERTEX

Nut, top plastic spacer, metal clip, bottom plastic washer and bolt.

VT-EXT mounted to rack

10 ft. detachable power cord

Security retention clip

Resettable circuit breaker

POWER MANAGEMENT

For non-rack mount power management solutions you can use a modular system by plugging the Vertex into a Panamax SM3-PRO (for 15 amp applications with IP control) or a Furman AC-215A (for 15 amp applications)or AC-220A (for 20 amp applications). You can easily mount these models in the back or your rack and plug the Vertex into the power management device to extend the protection, filtration and control.
